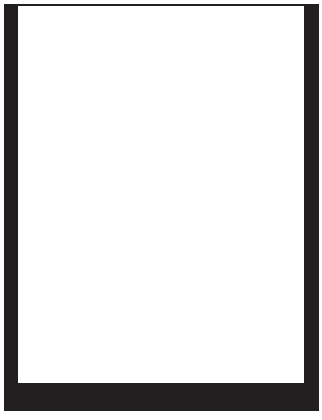
People are a nation’s greatest resource. Nature’s bounty becomes significant only when people find it useful. It is people with their demands and abilities that turn thec into ‘resources’. Hence, human resource is the ultimate resource. Healthy, educated and motivated

Distribution of Population

The way in which people are spread across the earth surface is known as the pattern of population distribution. More than 90 per cent of the world's population lives in about 30 per cent of the land surface. The distribution of population in the world is extremely uneven.

Some areas are very crowded



Cultural: Places with religion or cultural significance attract people. Varanasi, Jerusalem and Vatican city are some examples.

Economic: Industrial areas provimTj 01.2 yment

Migration is another way by which population size changes. People may move within a country or between countries. Emigrants are people who leave a country; Immigrants are those who arrive in a country.

Countries like the United States of America and Australia have gained in-numbers by in-migration or immigration. Sudan is an example of a country that has experienced a los3 re population-numbersduke o. y or e-migration.
